OIA-2026-5655

2nd March 2026

Dear [REDACTED]

I refer to the partial transfer of your request to the Department of Corrections of 3 February 2026. This concerns the following part of your request:

All documents and information related to Manawatu Prison water supply, to include among other things, source, filtration, treatment, testing, compliance certificates, reticulation

This request has been considered under the Official Information Act 1982 (OIA).

Manawatū Prison receives water from Linton Military Camp's low-pressure zone. The water is treated in a water treatment plant using: chlorination; diatomaceous earth filtration; and, fluoridation for dental health. The treated water is stored in two reservoirs. The water reticulation network is pressurised by a pump station (for the high pressure zone), and by gravity from a water tower for the low pressure zone.

The New Zealand Defence Force collects samples from the Linton Military Camp water supply network in accordance with the Drinking Water Quality Assurance Rules, including regular samples from the prison's network. Enclosed are copies of the water quality testing from 2024 to January 2026.

In accordance with section 28(3) of the OIA, you may ask an Ombudsman to review the withholding of information. Information regarding the process is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Please note that responses to official information requests are proactively released where possible. This response to your request will be published shortly on the NZDF website, with your personal information removed.

Yours sincerely

GA Motley
Brigadier
Chief of Staff HQNZDF

Enclosures:

1. Laboratory data
2. Manual data
